

Sample Terrains Catalogue

Q3-Q4 (July-December) 2010

About this Catalogue

Welcome to the **Simthetiq Terrains Catalogue** for **Q3-Q4 (July-December) 2010**. Inside, you will find a complete list of currently available 3D terrains for use with most simulation platforms.

All listed terrains are available in both high fidelity for ground-based interaction and light versions for aerial view, and may be licensed for use within a facility, software application or defence department. For more information on definition and licensing options, please visit Simthetiq.com

Functionality profiles, multi-angle 2D screen grabs and prices are available from your Simthetiq representative by calling +1.514.464.2088.

► Custom Development

Where a required terrain cannot be found in the current catalogue, Simthetiq is able to rapidly meet your needs with a **Custom Development Service**. Contact your Simthetiq representative for more information.

► Customisation

Please note that any Simthetiq terrain may be modified, provided with added features and functionality or otherwise tailored to order. Please contact your Simthetiq representative for details.

► Integration

An expert integration service is available upon request.

About Simthetiq

Simthetiq provides 3D digital models and environments for effective computer simulations. Committed to the acquisition of valid source information and the faithful representation of key characteristics and behaviours, Simthetiq allows customers to harness the full potential of today's simulation technology.

Founded in 2005 to meet the modelling needs of North American military contractors, Simthetiq is today a supplier of advanced 3D solutions for the global aerospace, gaming, research and defense industries.

Master your reality. Interact with Simthetiq.

The Simthetiq Library is Moving Online

Customers will soon be able to browse and shop the Simthetiq's extensive selection of off-the-shelf 3D models and terrains on Simthetiq.com. With large searchable DIS and standard databases, detailed product profiles and near instant product access, Simthetiq.com will be as great a resource as Simthetiq itself.

Of course, helpful human assistance will remain available during office hours (Eastern Standard Time/Eastern Daylight Time in Summer).

Printed orders should be addressed to:
